Together we'll make your business viable for financing

Your business plan, your business capabilities, a viable concept for your start-up and growth financing in conjunction with a clear market strategy: these elements are the foundation for successful talks with funding institutions, commercial and public banks, investors and partners.

We'll advise and assist you in the implementation of your financing concept through the use of loan programmes, grant-aid programmes, guarantees and share ownership schemes offered by the state and federal governments. In direct collaboration with Brandenburg's business promotion bank *Investitionsbank des Landes Brandenburg (ILB)*, we are your partner in searching for private and institutional investors.

On request, we can also help you to find a suitable location for your company, inform you of funding options for innovation and hiring technical staff, and advise you on how to tap into new or international markets.
